04 Our Global Network

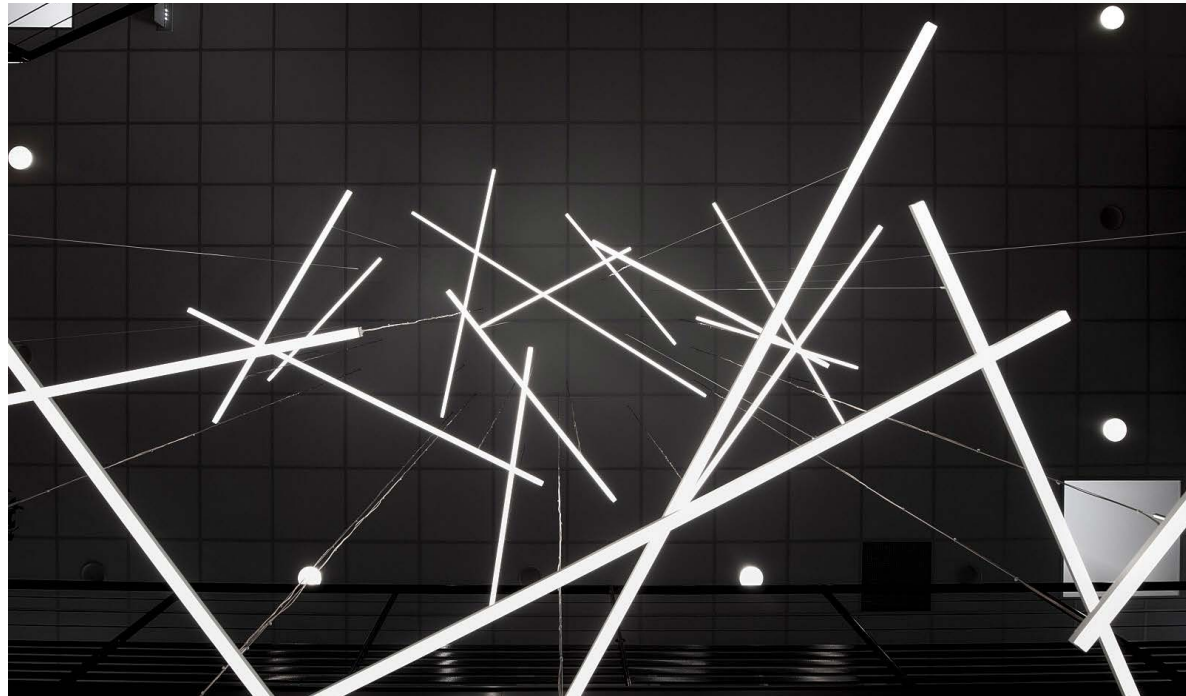

About us

SWITCH MADE Group, a fast-growing multinational company born in Lyon, France, has managed to impose itself as one of the major actors in the lighting business thanks to its numerous added services (R&D team, Lighting designers, Project managers) added to a global and wide offer of LED solutions. Its strong partnerships all over the world, reflect its know-how, confirm its target of covering a large number of countries and maintain its position among the biggest leaders in the lighting industry.

Key Concept

Today, the criteria of energy savings, performance, security and visual comfort are at the centre of the various market participants' requirements. From the client and sometimes end-user, the contractor (MEP), to the architects, designers and consultants, each of these actors expects to find solutions adapted to their needs and meet today's economic, environmental and social stakes.

We have a long and successful history of delivering green building projects like 1st LEED Platinum-certified building in Dubai (Dubai Electricity and Water Authority Head Quarters), 1st Minergie-ECO labelled project in the Middle East (SWISS School), ESTIDAMA rated projects (Taalem Raha Int. School, Rawdhat Residential Project) and many more.

Switch Made Quality

SWITCH MADE is an ISO 2015 :9001 qualified organisation. The certification relates to the scope of the management system: development, production, and sales of LED lighting luminaires, components and lighting design systems.

ISO 9001 is an internationally recognized standard for the Quality Management System (QM). This standard describes requirements that ensure the quality of products and services, and assurance of conformity to customer and applicable regulatory requirements. The certification according to this standard guarantees reliability and customer satisfaction.

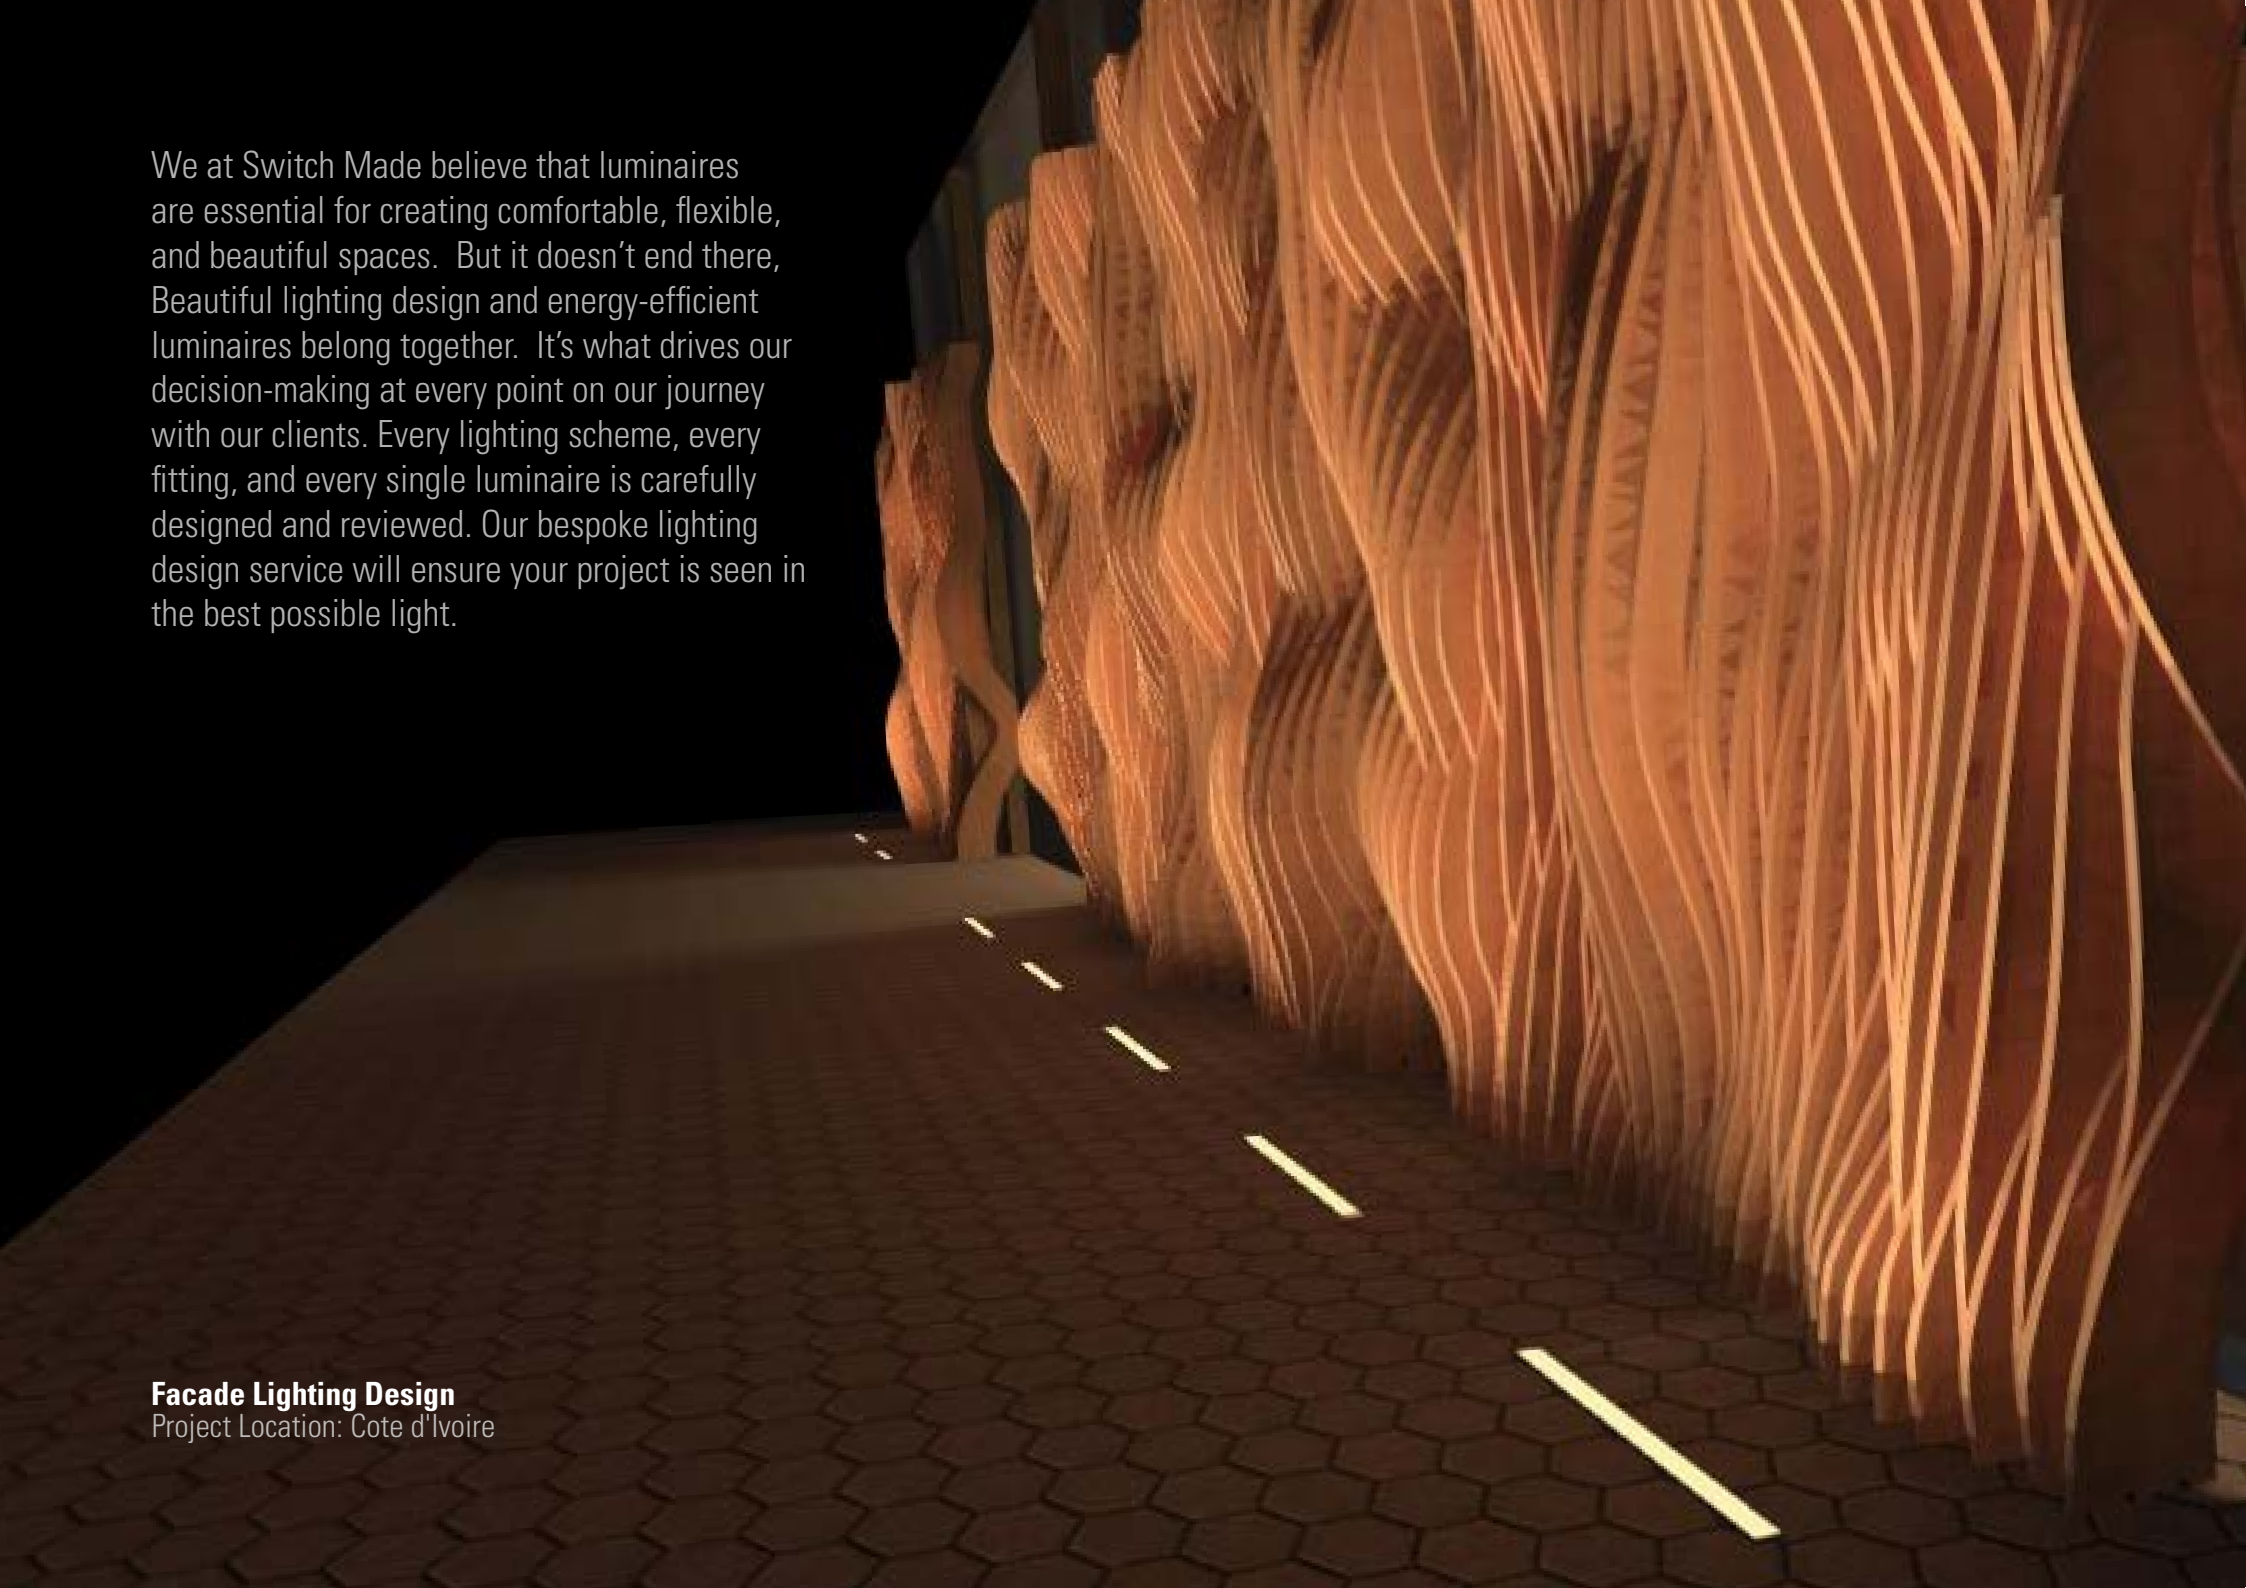

Lighting Design

Luminous Visions: Illuminating Spaces with Brilliance

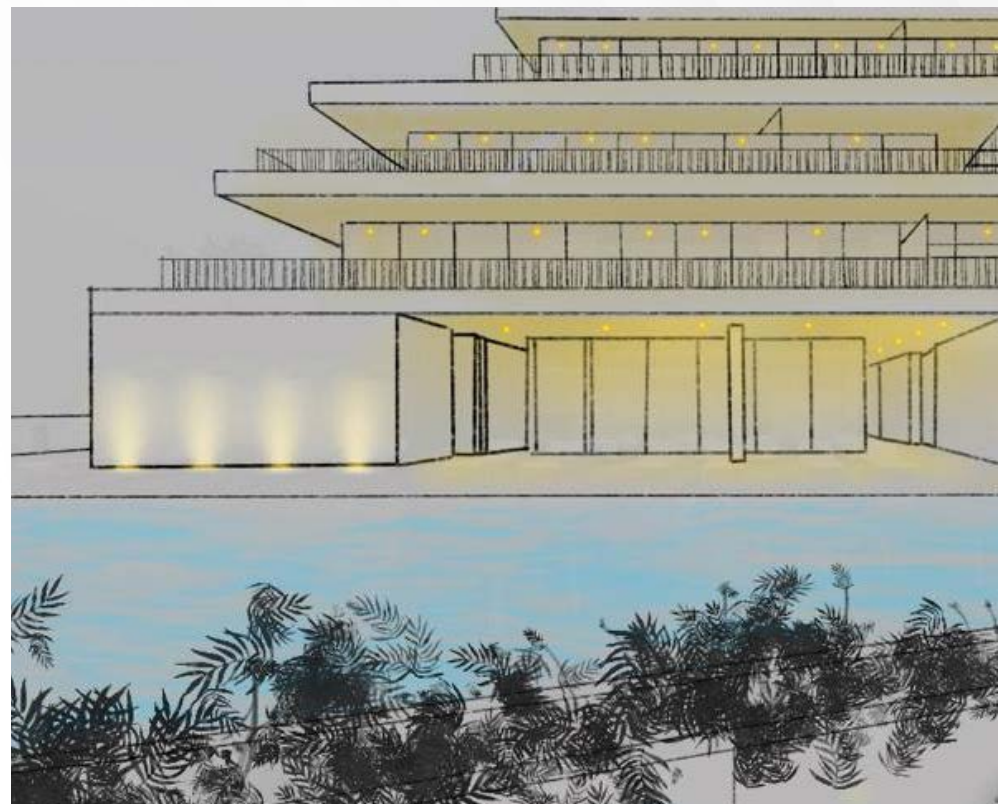

We at Switch Made believe that luminaires are essential for creating comfortable, flexible, and beautiful spaces. But it doesn't end there, Beautiful lighting design and energy-efficient luminaires belong together. It's what drives our decision-making at every point on our journey with our clients. Every lighting scheme, every fitting, and every single luminaire is carefully designed and reviewed. Our bespoke lighting design service will ensure your project is seen in the best possible light.

From concept to reality

Turning Concepts into Breathtaking Illumination

Being an architectural lighting design agency specialising in lighting design schemes for commercial and residential projects, SWITCH MADE Group understands what is required to achieve an exemplary standard of design quality as we work closely with our clients to provide creative solutions. Since 2008, we've been providing lighting design services for discerning clients around the world in the hospitality, corporate, residential, and retail sectors. We've worked in +16 countries, +60 cities, and on more than 120 projects, and counting.

Let us bring your vision to reality with our expertise and creativity in delivering captivating lighting solutions for every space.

Whether working in collaboration with interior designers and architects or directly with our clients, we originate imaginative, inspiring designs. And our ability to create visible effects without visible light sources achieves beautiful lighting schemes that enhance the space they illuminate and bring architectural features, textures, and finishes to life. Above all, we strive to deliver results that our clients appreciate and enjoy.

Hybrid Lighting Manufacturer

Crafting Innovative Hybrid Lighting Solutions

Since our inception, SWITCH MADE Group has determinedly established itself as one of the pioneer Hybrid Lighting Manufacturers.

During the first few years, SWITCH MADE has been manufacturing and providing high-quality luminaires through state-of-the-art lighting solutions for almost all areas of the interior, exterior, industrial architecture, and landscape in different countries globally.

Despite being a LED lighting manufacturer for more than 15 years, SWITCH MADE Group takes pride in its ability to provide a wide array of luminaires which you can find in our Interactive Catalogue. Our Interactive Catalogue boasts almost 500 diverse luminaires, ranging from Indoor, Outdoor, and Industrial, which you can easily browse and navigate on whatever device you are using without the need for an internet connection.

VOX Cinemas, City Centre Deira

One of the largest cinemas in the UAE, equipped with complex lighting scenarios that require expertise in lighting control.

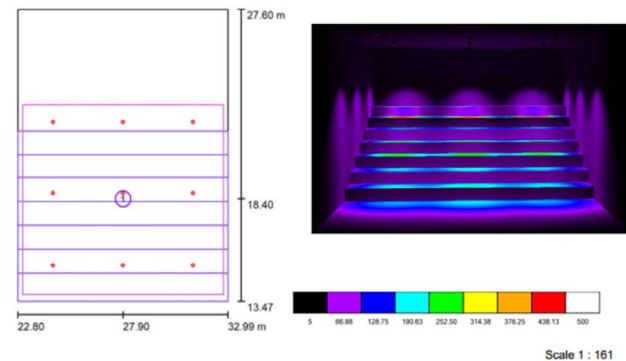

Unlock the Potential of Lighting

Lighting is an art form that goes beyond mere functionality

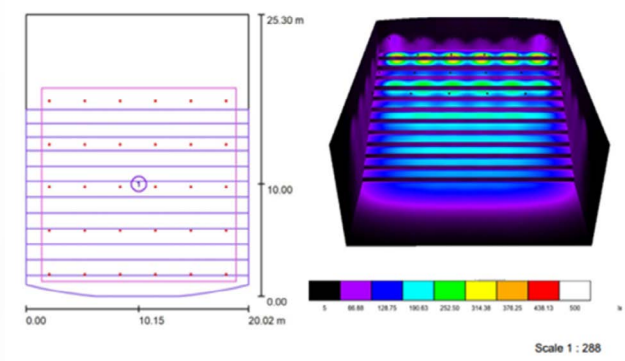

SWITCH MADE is a leading lighting design company that specializes in creating custom lighting solutions for both commercial and residential spaces. The company's mission is to provide clients with high-quality, energy-efficient lighting designs that meet their unique needs and requirements. They offer a wide range of services, including lighting design, lighting control systems, installation support, and maintenance.

SWITCH MADE's team of lighting designers and engineers works closely with clients to understand their needs, preferences, and budgets. They consider the architectural features, natural light sources, and the intended use of the space to develop a lighting plan that enhances the ambiance and functionality of the space. The company's designers use state-of-the-art software to create 3D renderings and lighting calculation of the whole lighting design, allowing clients to visualize the result before installation.

Calculation Surface List

LUX Report showing the actual illuminance levels in the space.

Transforming any space into a mesmerizing experience.

We aim to enhance our projects by implementing a comprehensive lighting control systems to optimize the energy consumption and to reduce the cost of electricity which results to high ROI. One of SWITCH MADE's unique offerings is its lighting control systems. These systems enable clients to control the lighting in their space remotely and can be programmed to turn on and off lights automatically, adjust the brightness of the lights, and even change the color temperature of the lights to suit different moods and occasions.

Success Stories

We equip projects all over the world with good light and carefully coordinated lighting solutions.

SWITCH MADE collaborates closely with clients, understanding their unique needs and aspirations, and brings their vision to life through bespoke lighting solutions. Our dedicated team of experts leaves no stone unturned in creating captivating designs that surpass expectations and illuminate the imagination.

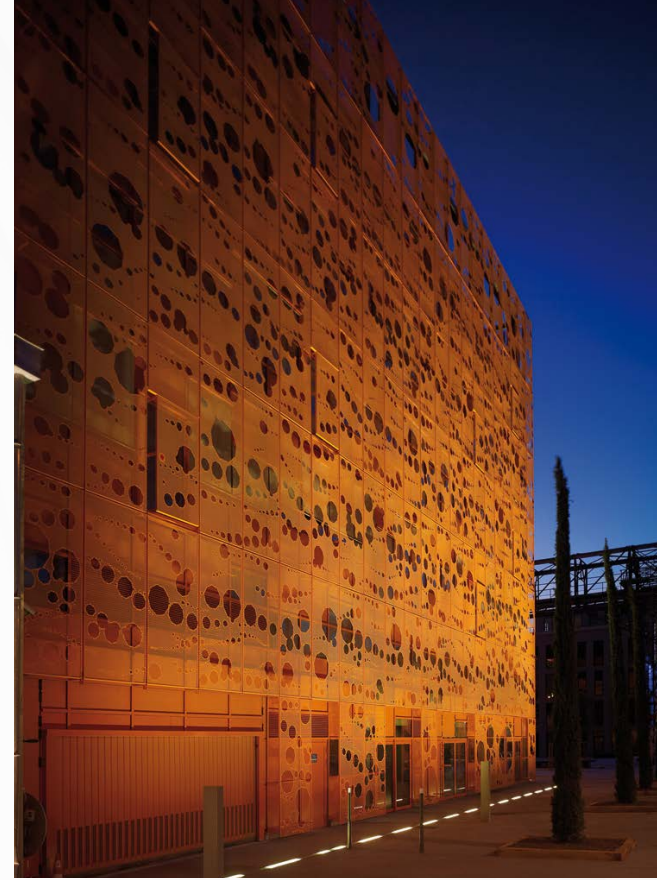

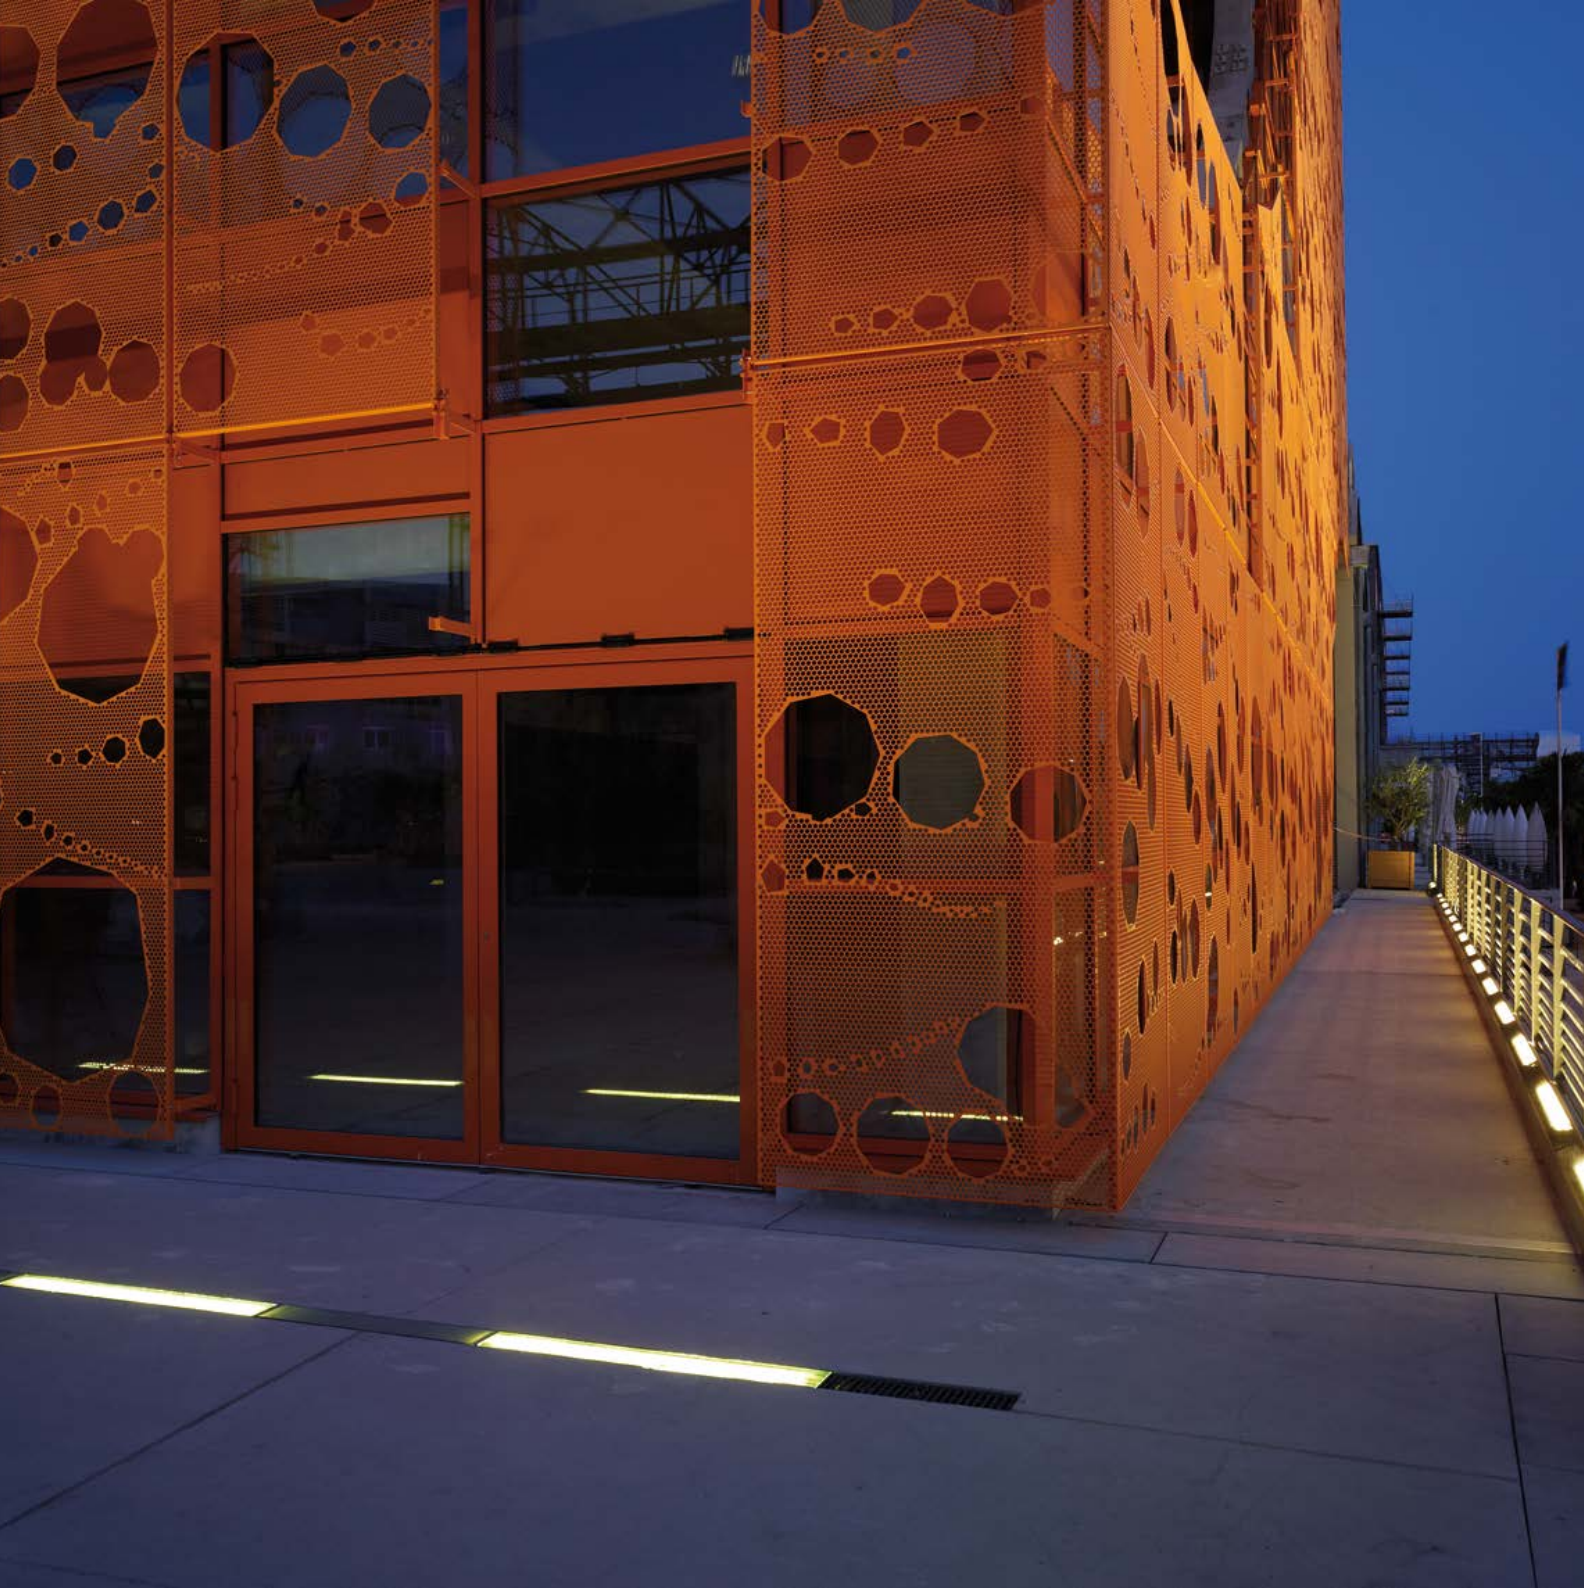

Outdoor And Facade

Le Cube Orange

42 Quai Rimbaud, 69002 Lyon, France

The Cube Orange was built on the banks of the Saône River near the confluence of the latter with the Rhone in Lyon , France.

The aim of the illumination project, developed by SWITCH MADE, is to accentuate the whole structural features, in particular, the architectural eccentricity. The façade was primarily accented by SWITCH MADE RECTA – a linear ground recessed inground flush mounting wall washer embellishing the scenic view of the overall façade architectural features.

Outdoor And Facade

France Pavilion- EXPO 2020

Dubai, United Arab Emirates

“Lumière, Lumières” – translated as “Light, Enlightenment” is the architectural theme of the France Pavilion, and it is a great honor for Switch Made group in achieving the Lighting Project of the Pavilion that will take different forms throughout the visitors’ journey to offer a unique experience.

Outdoor And Facade

Dubai Mall Facade

Downtown Dubai, United Arab Emirates

Located next to the iconic **Burj Khalifa**, the tallest tower in the world, the Dubai Mall is one of the largest malls in the world and is about the size of 150 football fields. Within the approximate 52k led luminaires installed, around 10km of linear solutions have been used to showcase the amazing structure of the façade.

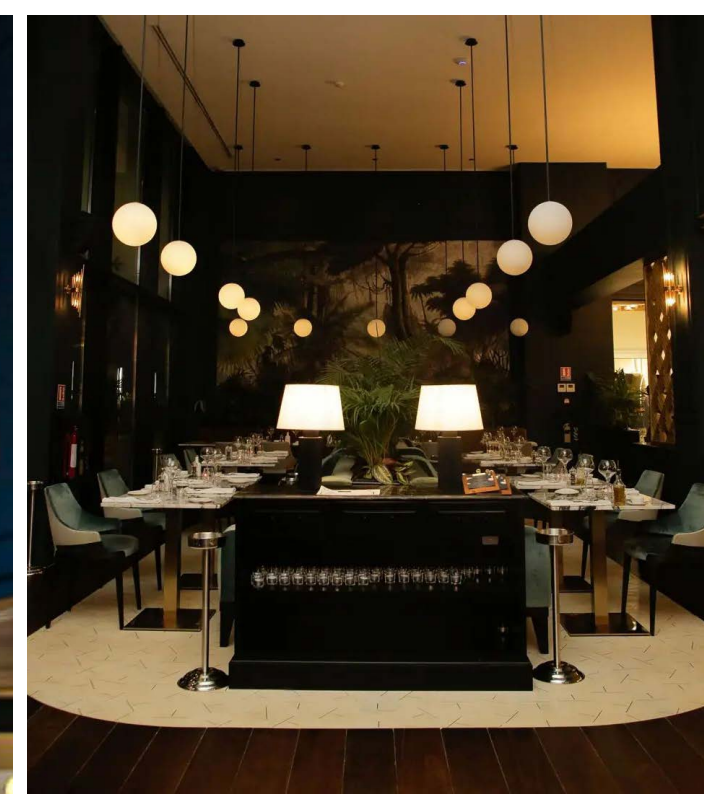

Hotel & Gastronomy

Le Comptoir Cocody Bar & Restaurant

Abidjan, Côte d'Ivoire

The restaurant's sophisticated interior owes its cosy, luxurious atmosphere to its sleek design blended with elegant colours. To match the interior, Switch Made custom-made decorative wicker pendant luminaires and downlights illuminated the serene and pleasant space from the ceiling with symmetrical wide beam light distribution onto the tabletops. The sleek wall light blends in discreetly with the interior concept to diffuse warm white light directly onto the space offering a calming aura.

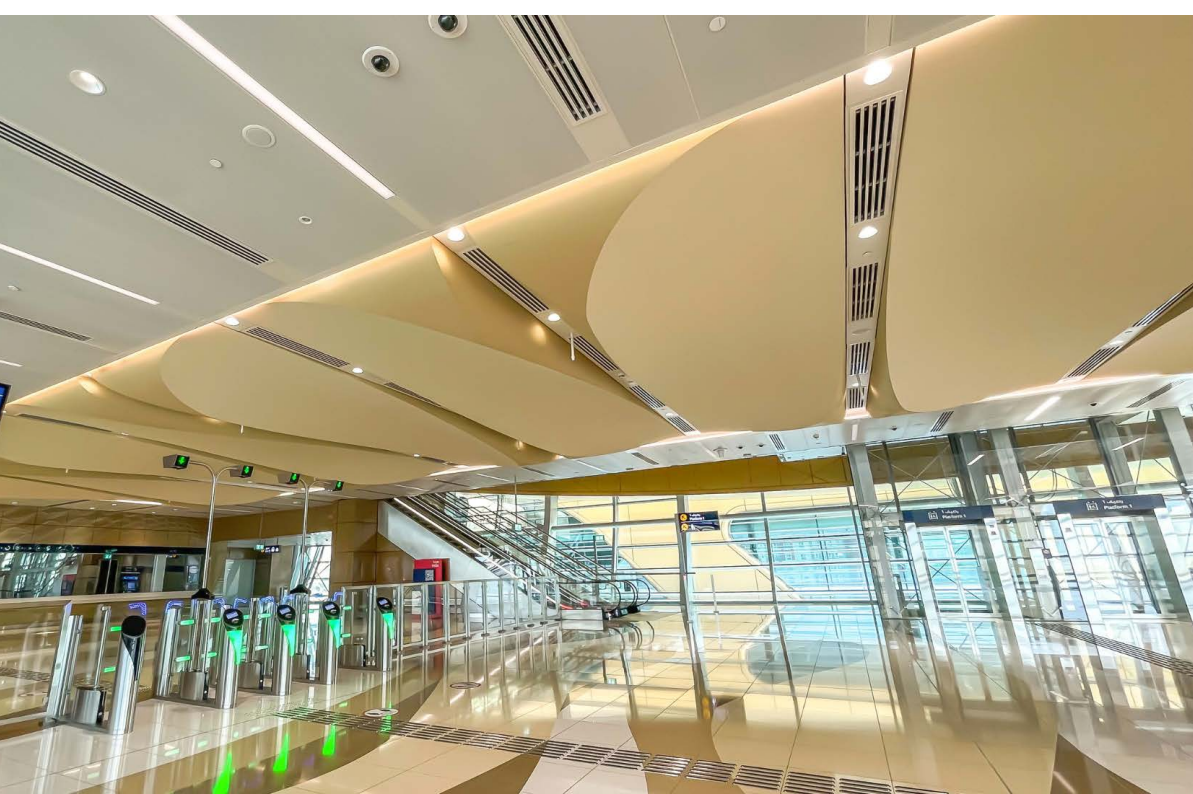

Public Transportation
Route 2020
EXPO 2020, Dubai, UAE

The Route that will connect a developing community to the city has finally laid its pathway. Dubai Metro opened the interchange station between the Dubai Metro red line and EXPO 2020

Outdoor And Facade

ENOC Pavilion - EXPO 2020

Dubai, United Arab Emirates

Having a long and successful history of delivering green building projects across the globe, We, at SWITCH MADE Group are very grateful to be a part of ENOC Pavilion's aim to showcase energy-efficient solutions to the world at the Expo 2020 Dubai.

Outdoor And Facade

Crest-Voland Church

Crest-Voland France

The illumination plan laid out by the Switch Made Group for the church of Crest-Voland interpreted the idea that the church should primarily radiate from the inside out.

The light from within the structure was also a part of the exterior lighting and had to be blended with the original architecture accordingly. SWITCH MADE ZETA series' symmetrical light distribution materialised the scene portrayed in each stained glass window. For the broad lighting, the warm illumination from Switch Made's projector lights emphasises the astonishing beauty of this historical site and monument.

Outdoor And Facade

Dubai Chamber of Commerce and Industry

Dubai, United Arab Emirates

Switch Made high-efficient LED-powered RGBW DMX lighting systems were designed and installed in this iconic building in Dubai to have a dynamic façade of pixels to transform more colors to the night scenes of this landmark.

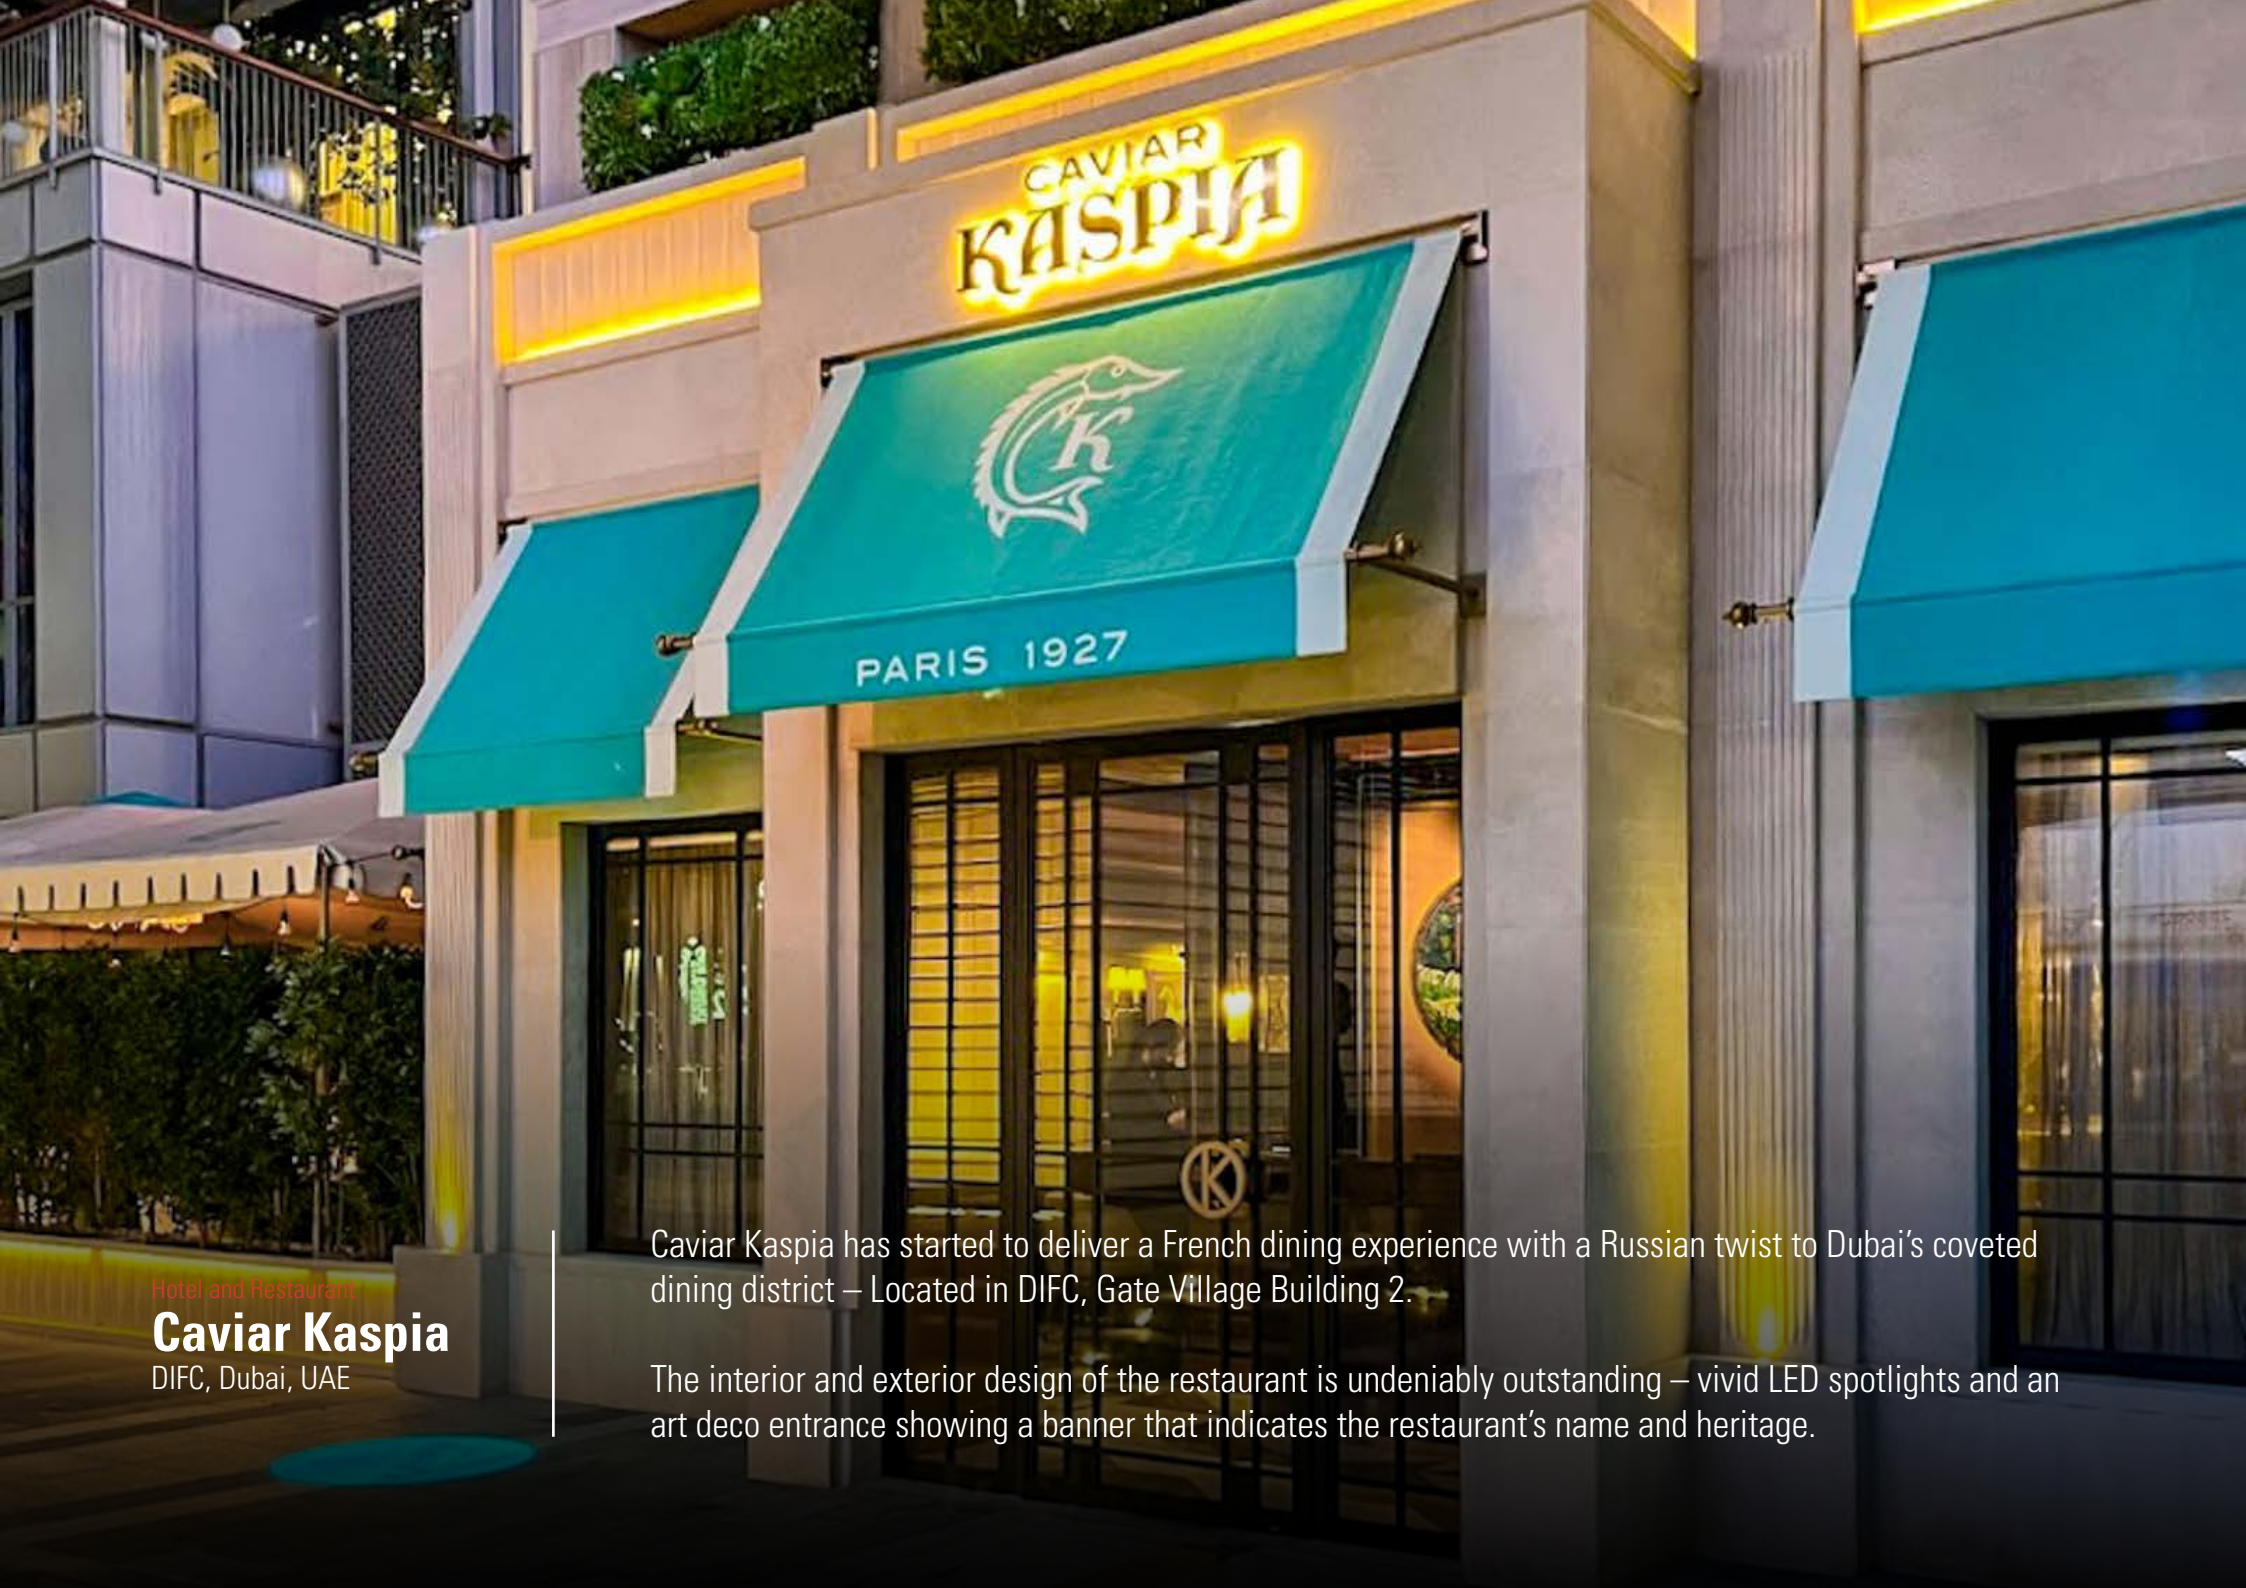

Outdoor And Facade

Luxembourg Pavilion - EXPO 2020

Dubai, United Arab Emirates

Switch Made Group was able to manufacture energy-efficient bespoke lighting solutions that matched the specific lighting requirements of the eccentric architecture of Luxembourg Pavilion: Möbius strip, in which a twisted and folded ribbon has no beginning and no end.

Hotel and Restaurant

Caviar Kaspia

DIFC, Dubai, UAE

Caviar Kaspia has started to deliver a French dining experience with a Russian twist to Dubai's coveted dining district – Located in DIFC, Gate Village Building 2.

The interior and exterior design of the restaurant is undeniably outstanding – vivid LED spotlights and an art deco entrance showing a banner that indicates the restaurant's name and heritage.

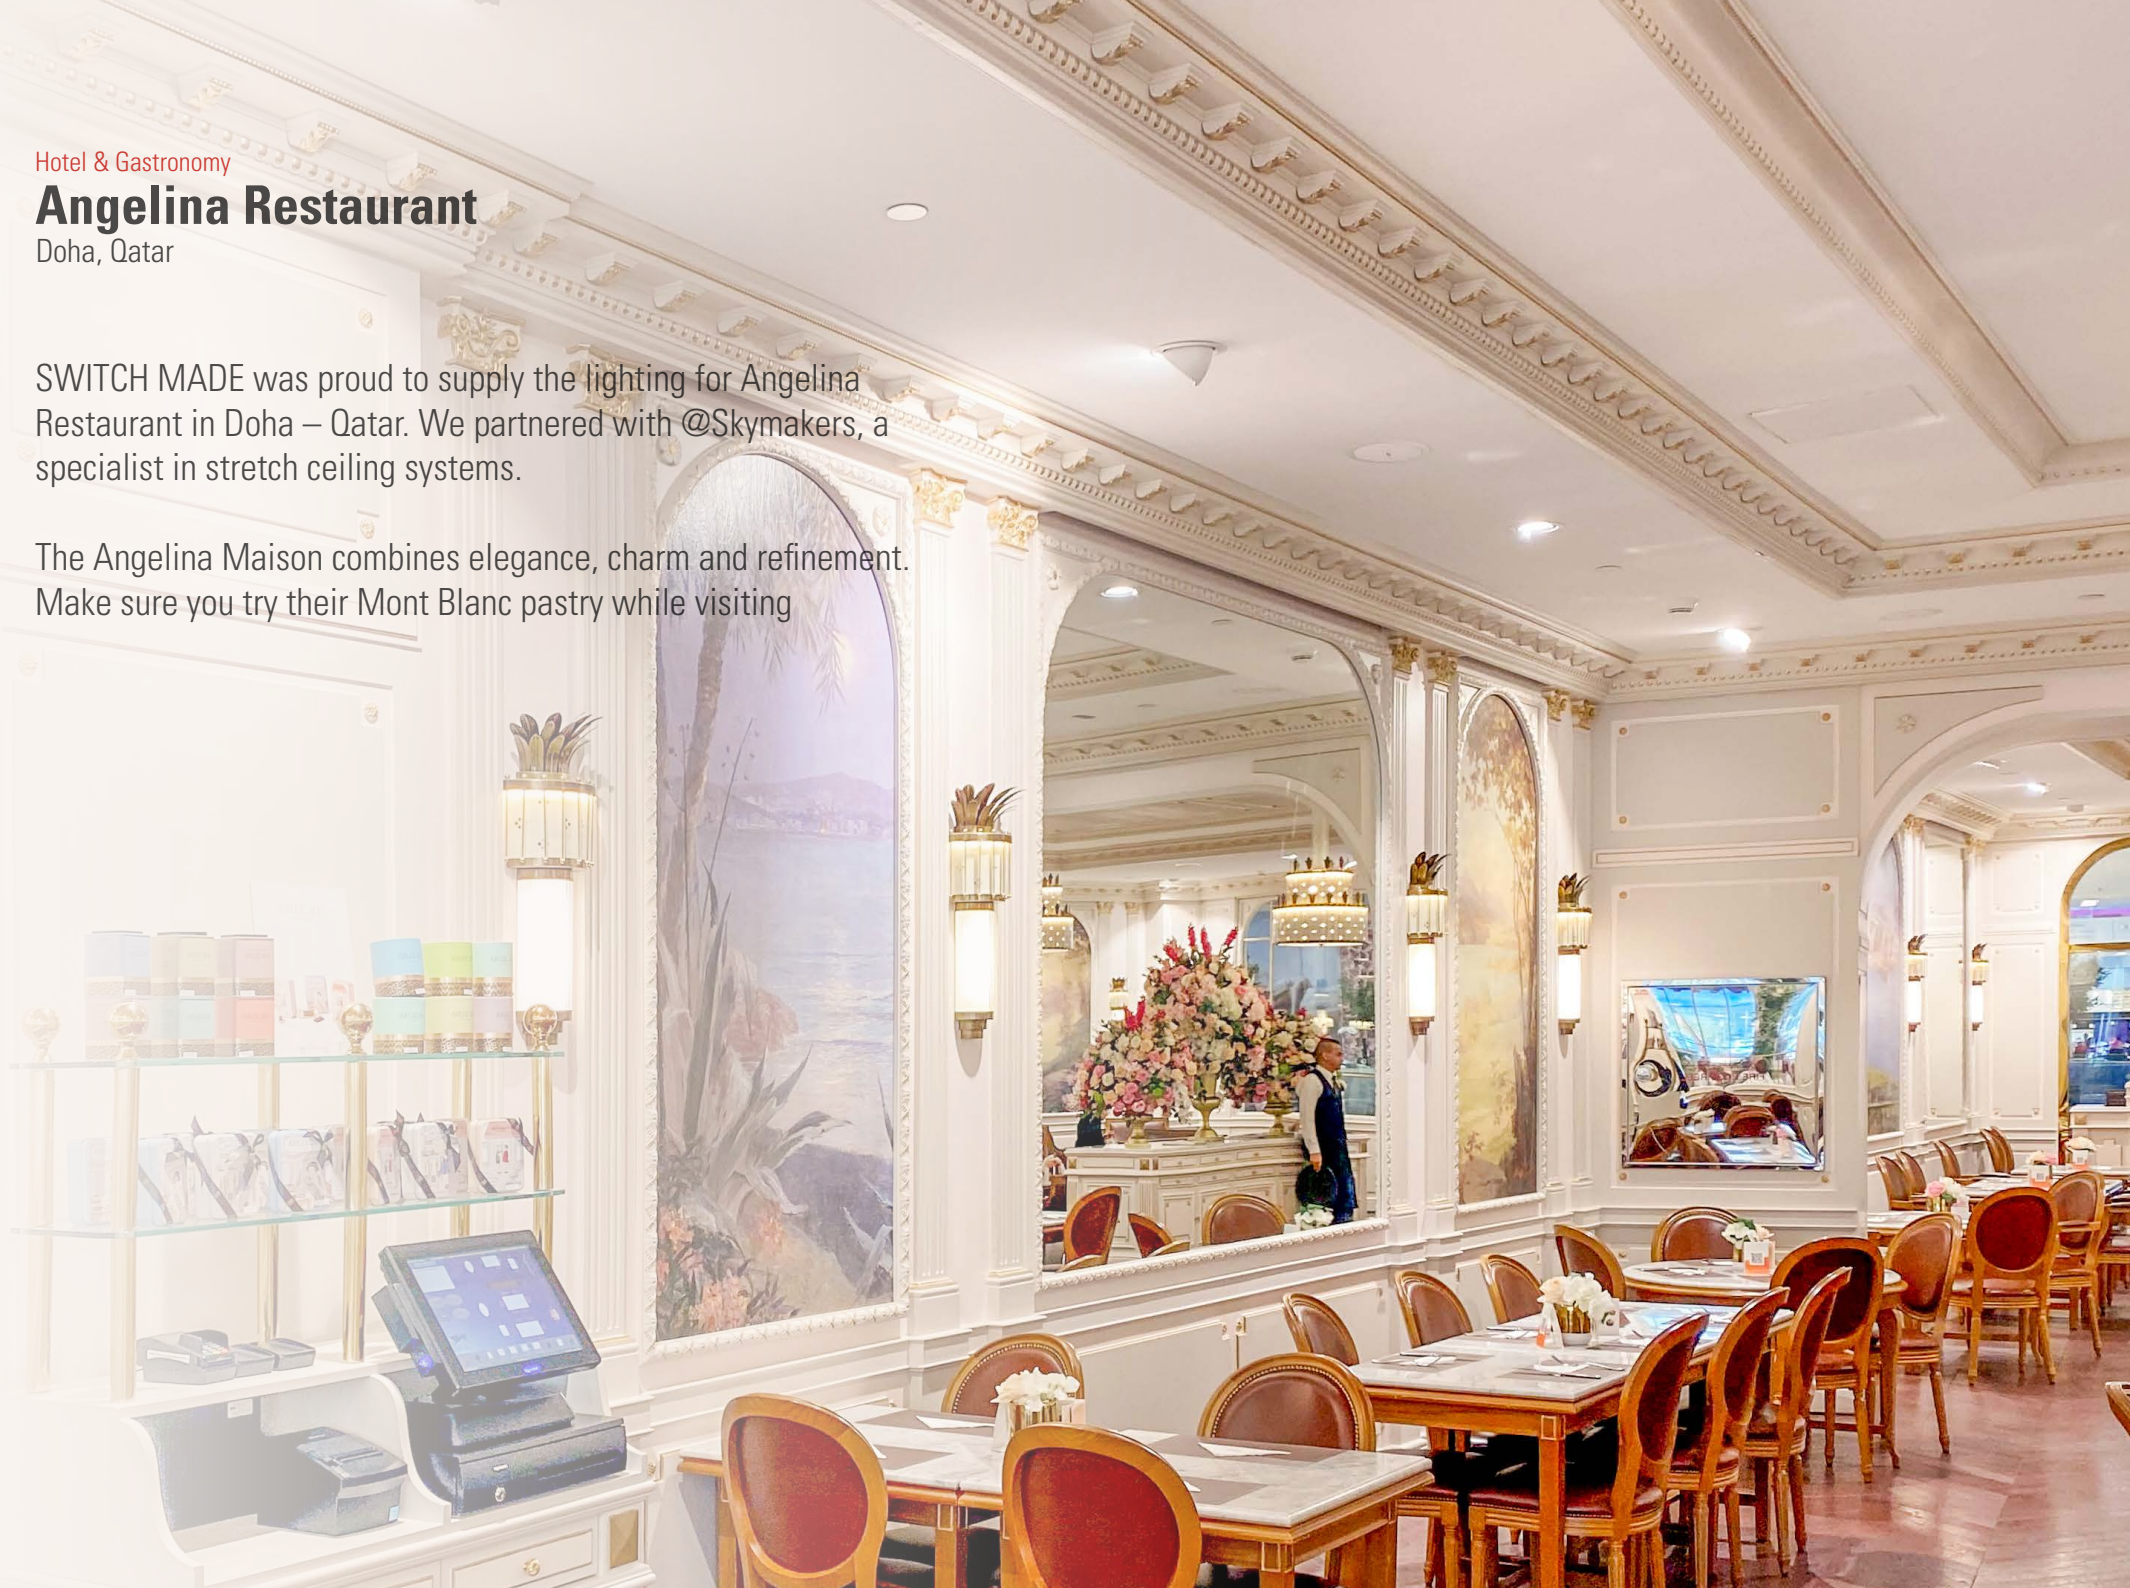

Hotel & Gastronomy

Angelina Restaurant

Doha, Qatar

SWITCH MADE was proud to supply the lighting for Angelina Restaurant in Doha – Qatar. We partnered with @Skymakers, a specialist in stretch ceiling systems.

The Angelina Maison combines elegance, charm and refinement. Make sure you try their Mont Blanc pastry while visiting

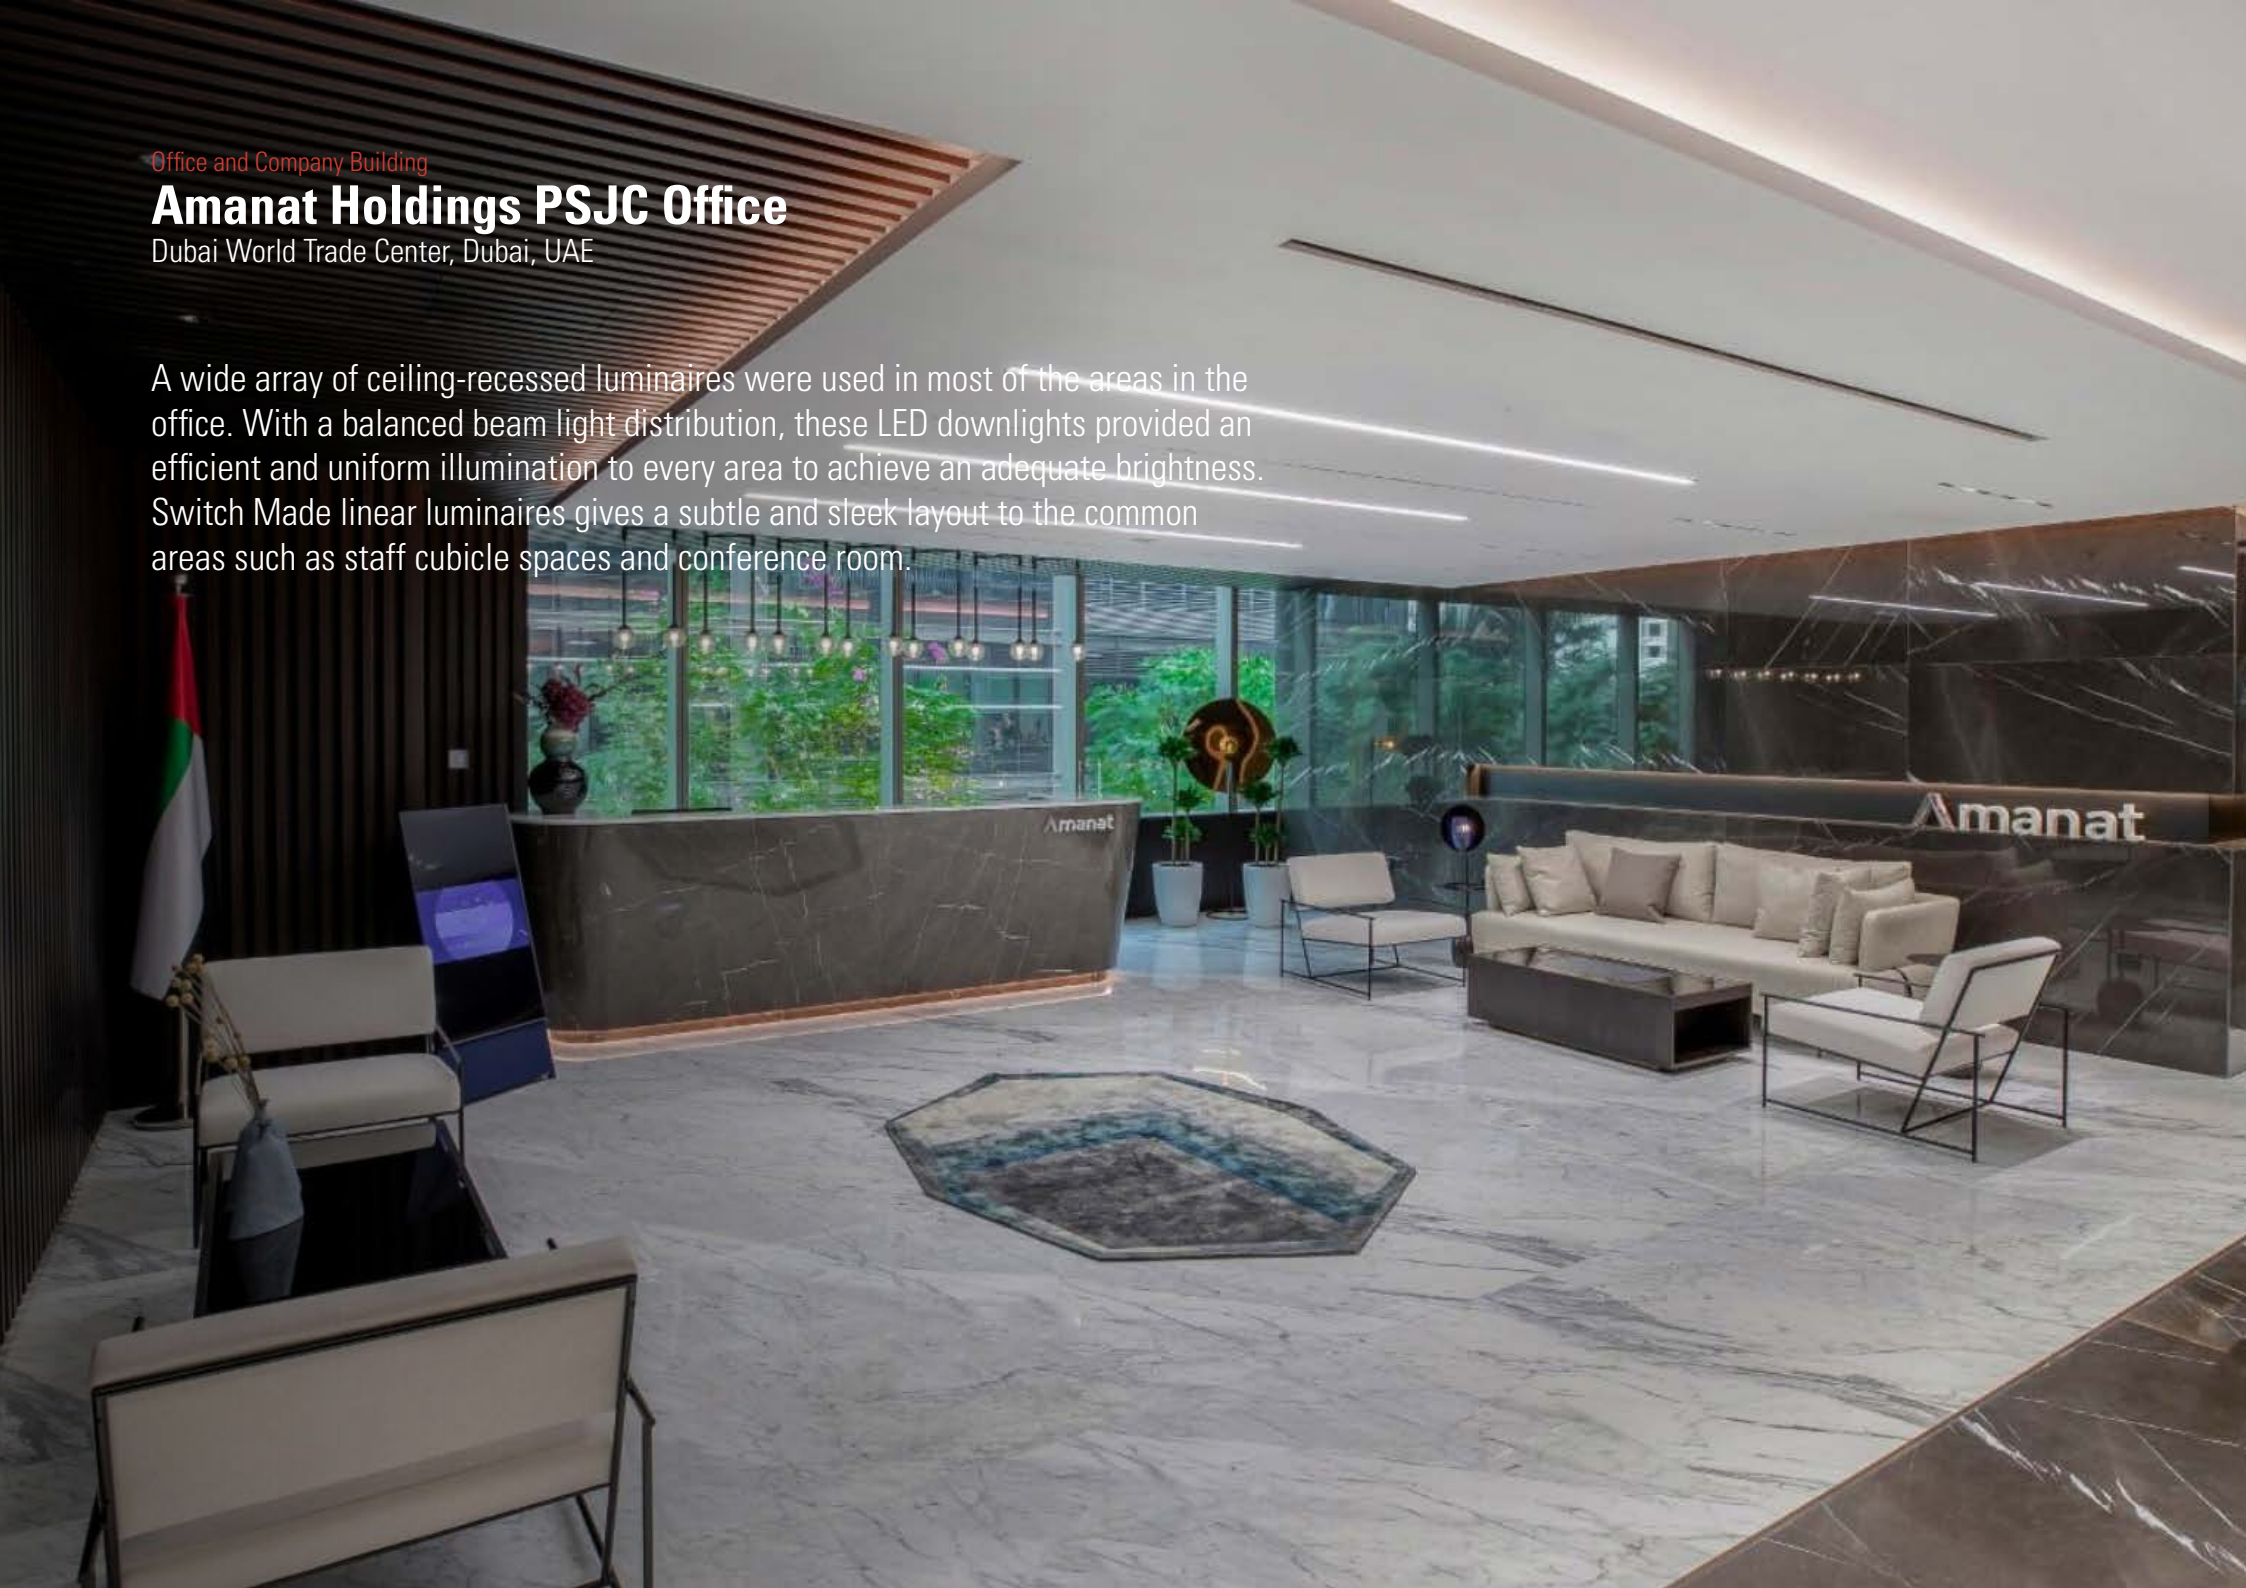

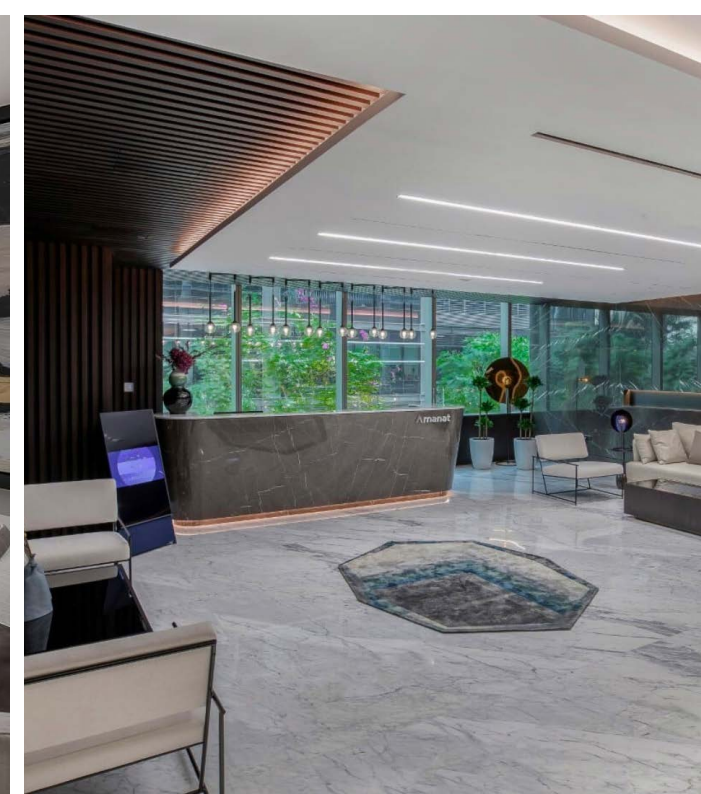

Office and Company Building

Amanat Holdings PSJC Office

Dubai World Trade Center, Dubai, UAE

A wide array of ceiling-recessed luminaires were used in most of the areas in the office. With a balanced beam light distribution, these LED downlights provided an efficient and uniform illumination to every area to achieve an adequate brightness. Switch Made linear luminaires gives a subtle and sleek layout to the common areas such as staff cubicle spaces and conference room.

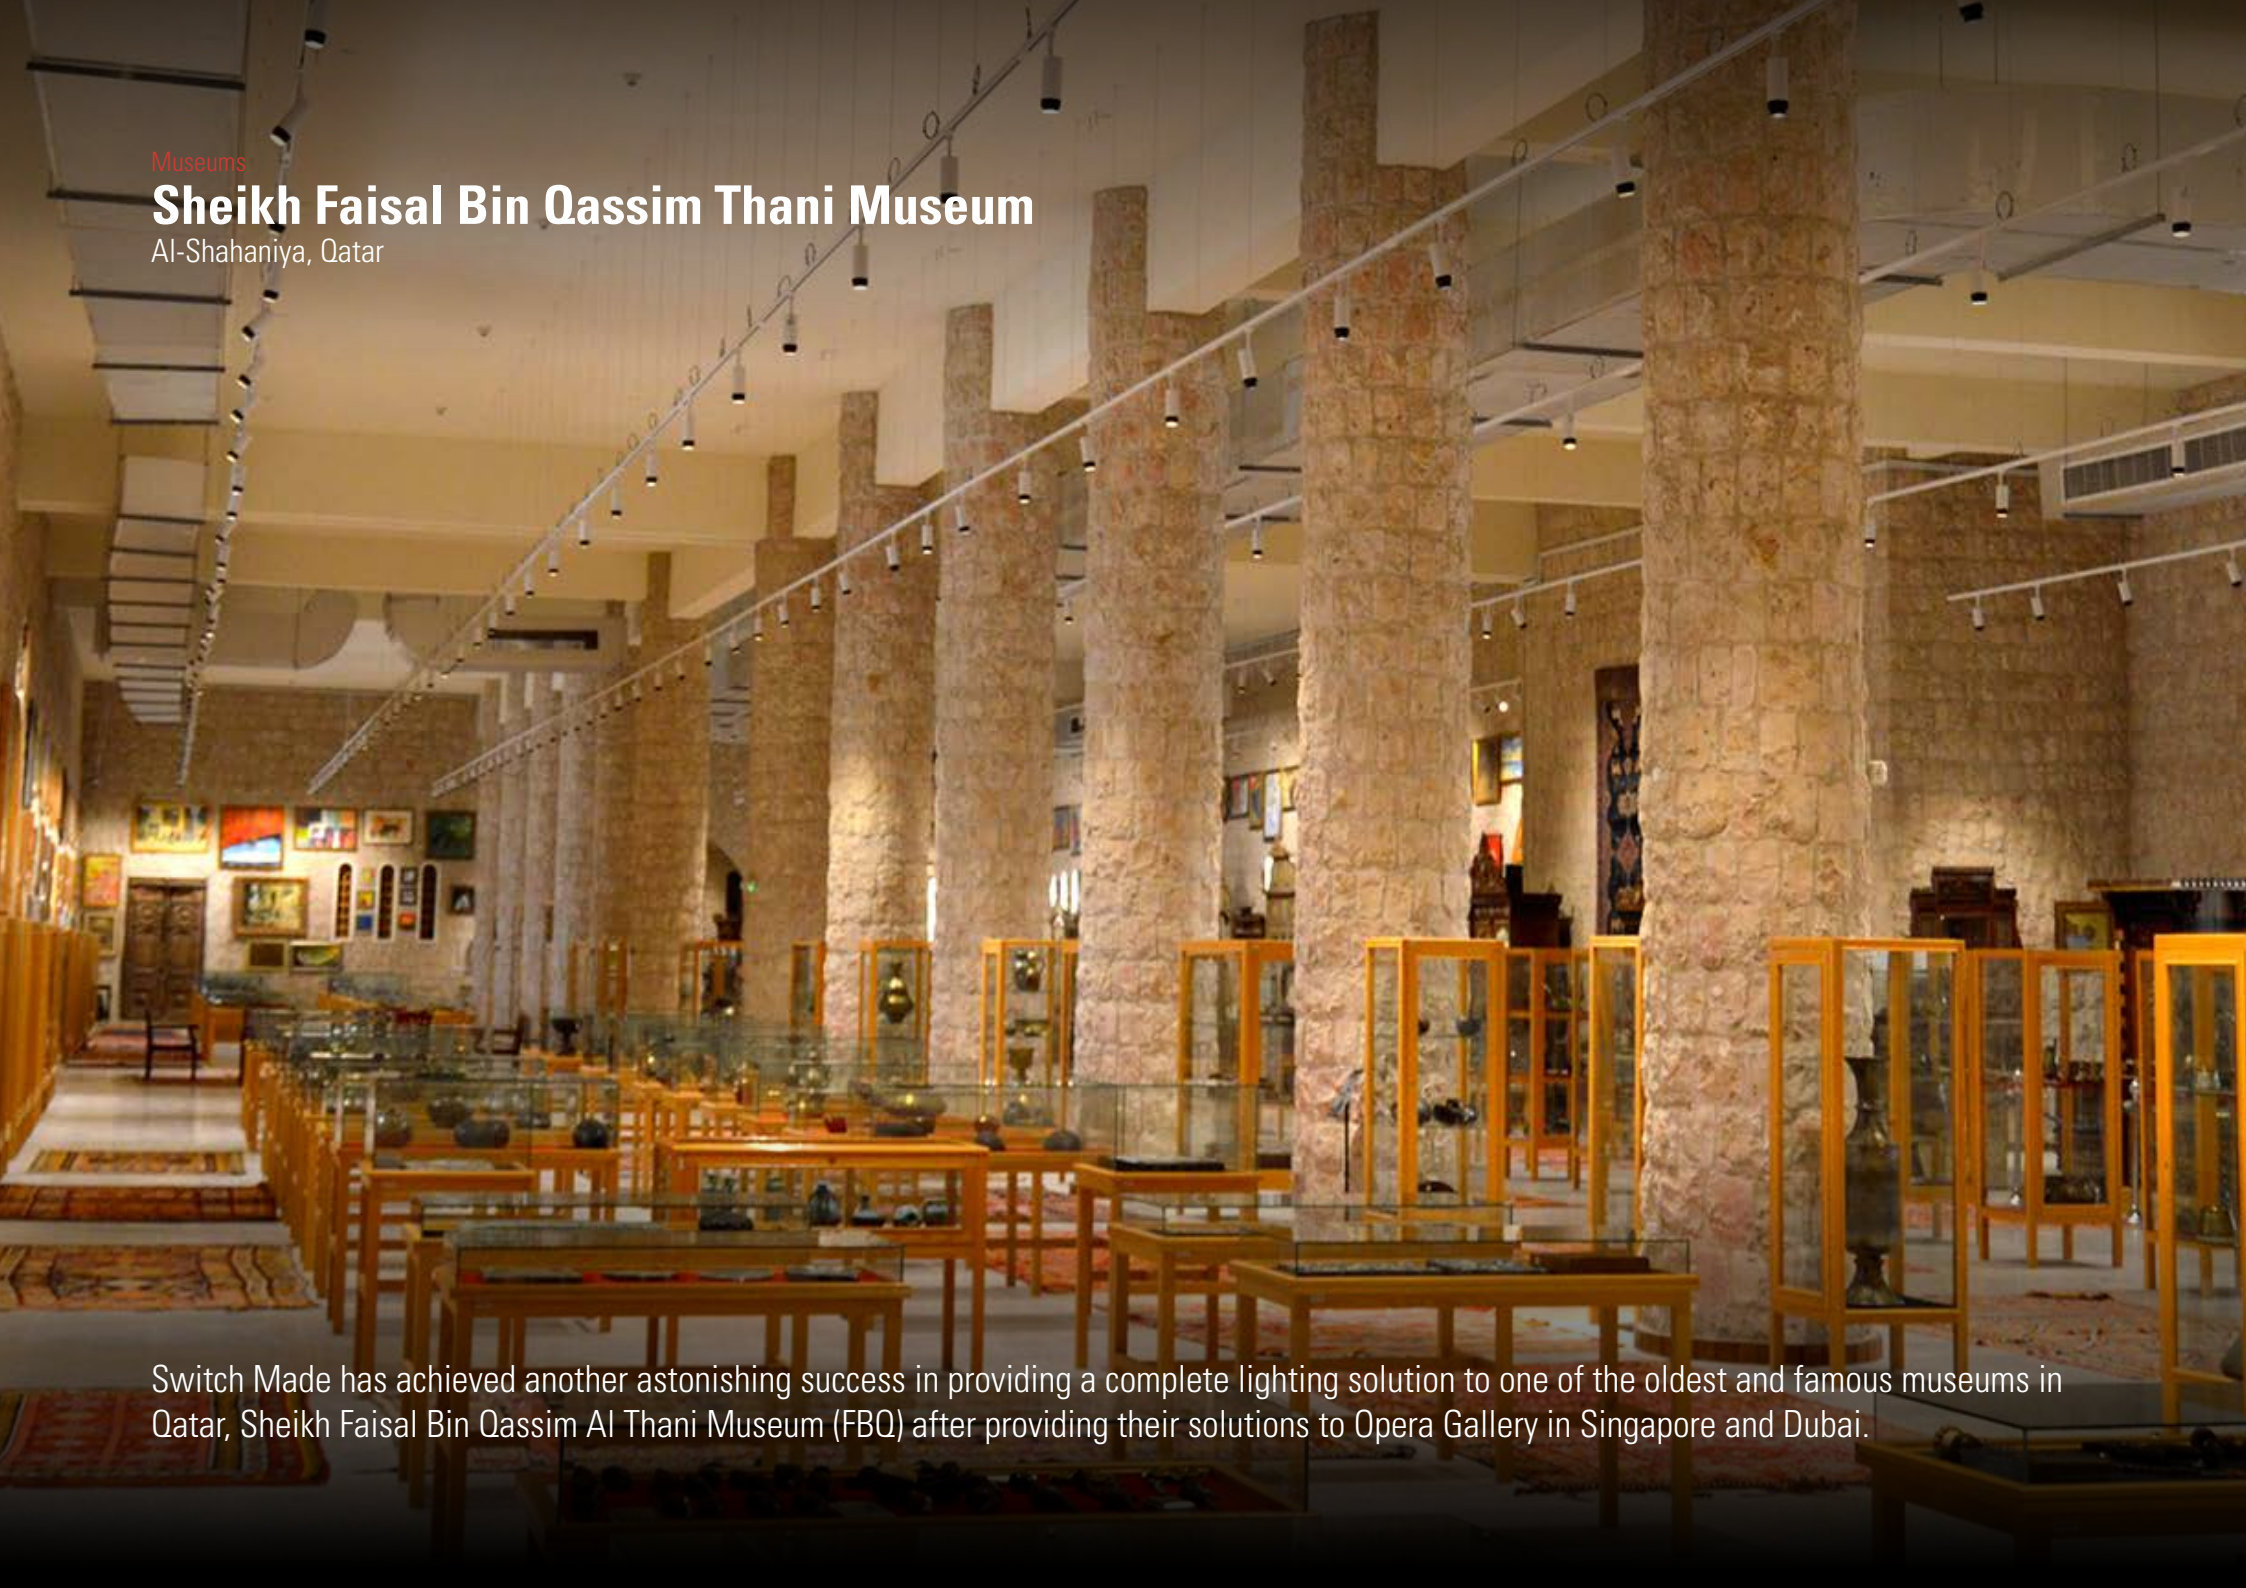

Museums

Opera Gallery

2 Orchard Turn, Singapore

After completing the OPERA GALLERY in Dubai, SWITCH MADE proposed its solution for the Singapore branch. Lighting artwork properly is essential to experience and understand the complete work of art and all of its illustrious detail.

The image shows the interior of the Sheikh Faisal Bin Qassim Thani Museum. The space is characterized by tall, cylindrical stone pillars that support a high ceiling. Numerous track lighting fixtures are installed on the ceiling, providing focused illumination on the exhibits. The exhibits are displayed in glass cases and on wooden tables. The floor is covered with patterned rugs. The overall atmosphere is one of a well-lit, spacious museum gallery.

Museums

Sheikh Faisal Bin Qassim Thani Museum

Al-Shahaniya, Qatar

Switch Made has achieved another astonishing success in providing a complete lighting solution to one of the oldest and famous museums in Qatar, Sheikh Faisal Bin Qassim Al Thani Museum (FBQ) after providing their solutions to Opera Gallery in Singapore and Dubai.

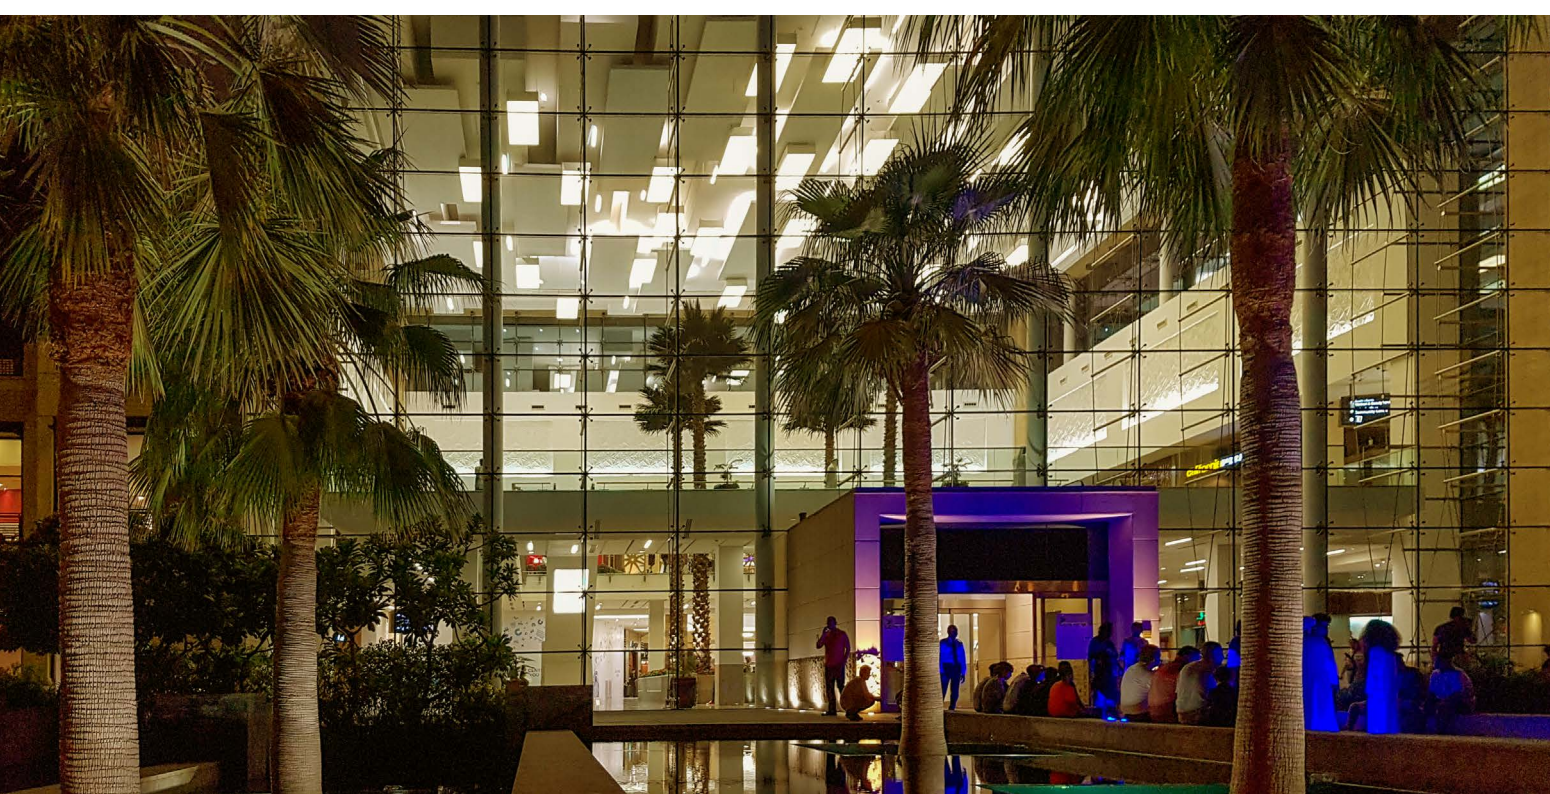

Commercial Malls

Mirdif City Center

Mirdif, Dubai, UAE

The Award-winning Mirdif City Centre reinforces Dubai's role as an international retail destination, but it also takes its role as a trend-setter a step further. By pursuing LEED Gold certification, the -230,000 SM center sets a high standard for future sustainable development in the area.

Outdoor And Facade

Rixos Bab Al Bahr

Al Marjan Island - Ras al Khaimah, United Arab Emirates

The impressive appearance of the Rixos Bab Al Bahr, a majestic hotel situated on the pristine white sands of Ras Al Khaimah's tranquil Marjan Island is heightened by SWITCH MADE's LINETECH luminaires. These luminaires were precisely customised in the size of 900mm to ideally match the specific requirements of the hotel's architecture, The highly efficient 20 LEDs fixed in each luminaire was able to present a dynamic wall washing effect that distributes the light uniformly and accentuates the entire building after sunset.

Retail Shops

Messika Paris

Mall of the Emirates, Dubai, UAE

Precise illumination is particularly essential when it comes to illuminating a luxury jewelry shop, not only for yielding a clear display of the items but also for providing great visual comfort. For this reason, once again SWITCH MADE Group did a very articulated lighting project to this French Jewellery Shop.
